RE: INTRODUCTION OF UNIVERSITY EMAIL ACCOUNTS

Dear Students,

I hope this message finds you well. We are excited to announce the introduction of University Email Accounts for all students.

Students will use the emails for;

Engaging in university business communication (academics such as coursework assignments, official communications with other members of the university community), accessing the e-library and other university e-Resources, accessing the university wifi via eduroam, accessing the students' portal, among others.

We encourage you to start using your university email account for all official correspondence, including communication with lecturers, administrative offices, and fellow students. Please note that this email account will also be used for important university announcements, so be sure to check it regularly.

We have provided videos on how to activate your email via the ICT Support portal, if you have any questions or encounter any issues during the activation process, please contact our ICT Support team.

Warm regards,

.....
ICT Management
